Background

Capacity Building workshop for accredited ICH NGO, 1-3. december raised the question of establishing regional networks. Albert van der Zeijden (rapporteur) presented a few headwords from the working group:

Different types of NGOs (e.g. community based, specialized or a general scope)

Different functions: communication, interface, intermediaries: working in the space between the government and community/groups, translation of UNESCO language into ordinary language

Cooperation (museums projects, Nordic countries etc)

Founding vision

The division between west and east is unfunctional and not in the spirit of the convention. The group express a wish to merge at the NGO-group level, and as a longterm objective sensitize Stateparties of the Convention of an outdated division, maybe frame it as a bottom up statement in the 12. COM?
